Toastmasters International is a global non-profit educational organization. It offers a program of communication and leadership projects designed to help people learn the art of speaking, listening and thinking.

We are a group of BASF employees who are already members of Toastmasters International. Now everyone at BASF can benefit from this unique program by participating in the club within the BASF Ludwigshafen site.

Visit our regular meetings and share the Toastmaster's experience. It also gives a great opportunity to network with fellow colleagues.

Please feel comfortable to visit one of the next meetings as a guest. Get to know us and the way we practice public speaking and then make your decision.

You can also join our online community through **connectBASF**.
